Abstract:

When addressing the Quranic studies, huge tradition & illustrations are produced, among which, Abdul Qaher Jarjani's work was profound. He paid great attention to the Quran with holistic view based on his linguistic theory. He deeply pondered his predecessors' debates regarding pronunciation & meaning. In the midst of that, he was struck by the connection of words in a remarkable manner. He realized the advantage on which he established fixed rules that has been subject to research & linguistic study, especially those in Quran.

This study investigates Abdul Qaher Al Jarjany's efforts in light of his book "Signs of Miracles", to reach a perception of his perspective & insight in a way to reveal his opinions ,
